Experience efficient mono laser printing

Easy to set up and connect with fast flawless printing

Boosting your printing efficiency

Brother's outstanding range of mono laser printers designed for home and small offices, come equipped with a variety of time-saving features that enable you to improve your output, leaving you with more time to focus on other tasks. Get setup with ease and download the Brother Mobile Connect app, enabling you to print and scan* documents on the move.

*Multifunction devices only

The perfect partner for your small office

The office and home environment is continuously changing, with an increase in the demand to multi-task and improve efficiencies. Being confident that you have a printer you can rely on, easily connect to, while printing flawlessly and quickly is key.

Workspace can sometimes be limited. This range of compact Brother mono laser printers enables you to print without interruption in smaller locations and features are not compromised.

Work smarter

Expertly designed to increase efficiency, with fast print speeds helping you to work smarter. The 2-sided print, high capacity input and output tray and Automatic Document Feeder* features save you time, enabling you to get on with other tasks.

*Multifunction devices only

Effortless

Make your day easier and your printing effortless, with simple set up and fast ethernet, 5GHz WiFi or USB connection. These efficient mono laser printers are a breeze to operate. The flagship printers have an easy to navigate touchscreen, while other models benefit from an LCD control panel.

Print longer

These efficient mono laser printers keep your printing costs down using a separate drum and toner unit, and the generous inbox toner supports your higher print volume needs. Toners are easy to change and a high yield replacement toner printing up to 3,000 pages is available, reducing your frequency to replace.

Secure by design

To keep pace with the ever-evolving legislation on privacy and data security, our devices offer the latest industry-standard security features to securely protect your data. Our security experts continuously research new enhancements to products, solutions and services to proactively ensure all our products are 'secure by design'. Brother uses triple-layer security at a device, network and document level. This offers added peace of mind and guarantees that the integrity of your data is maintained at every step.

Your efficient mono laser printer range with fast and flawless print

Dedicated to remanufacturing and reducing CO2

Our processes mean that 100% of the Brother cartridges you send back to us are remanufactured or recycled. Absolutely nothing goes to landfill and hasn't since 2013.

We are regularly investing in more sustainable products by working towards the circular economy principles of reduce, reuse, refurbish, repair and recycle with zero waste to landfill.

Dedicated carbon neutral remanufacturing facilities support our free cartridge return and recycle scheme. Every year, we remanufacture or recycle 3 million toner cartridges.

By remanufacturing 86% of our toner cartridges and each cartridge saving on average 33% of CO2, we save around 4,500 tonnes of CO2 each year. In doing this, we are able to support your company in reducing its carbon footprint and can provide you with an annual certifcate showing the amount of CO2 you have saved when returning cartridges via the bulk returns scheme.

Zero waste to landfill

Our European recycling facilities have been zero waste to landfill accredited since 2013 - stopping 1,500 tonnes of material from ending up in landfill every year.

Our commitment to local communities

Our Vietnam manufacturing facilities received Responsible Business Alliance (RBA) Gold certification, for our commitment to fulfilling our social responsibilities through the establishment of sustainable supply chains.

RBA's code of conduct sets out standards to ensure that working conditions are safe, that workers are treated with respect and dignity, and that business operations are conducted environmentally responsibly and ethically.

COOL EARTH

As well as our market-leading, carbon-neutral toner remanufacturing program, we have been partners with global charity, Cool Earth for well over a decade. A UK-based non-profit organization, Cool Earth helps protect endangered rainforest, combats against climate change and provides employment for local people.

Together, we have supported 7 communities across Papua New Guinea and the Peruvian Amazon in protecting around 70,000 hectares of rainforest from deforestation. As custodians of this land, these local communities have kept almost 27 million trees standing which absorb and store over 38 million tonnes of CO2 from the earth's atmosphere.
